"The security situation in Israel, and specifically in the Binyamin region, has been particularly difficult for our youth. Some children have been confronted directly with death; some have even lost siblings or become orphans.

This intolerable situation reinforces our obligation to provide these children with the sense of security that they deserve.

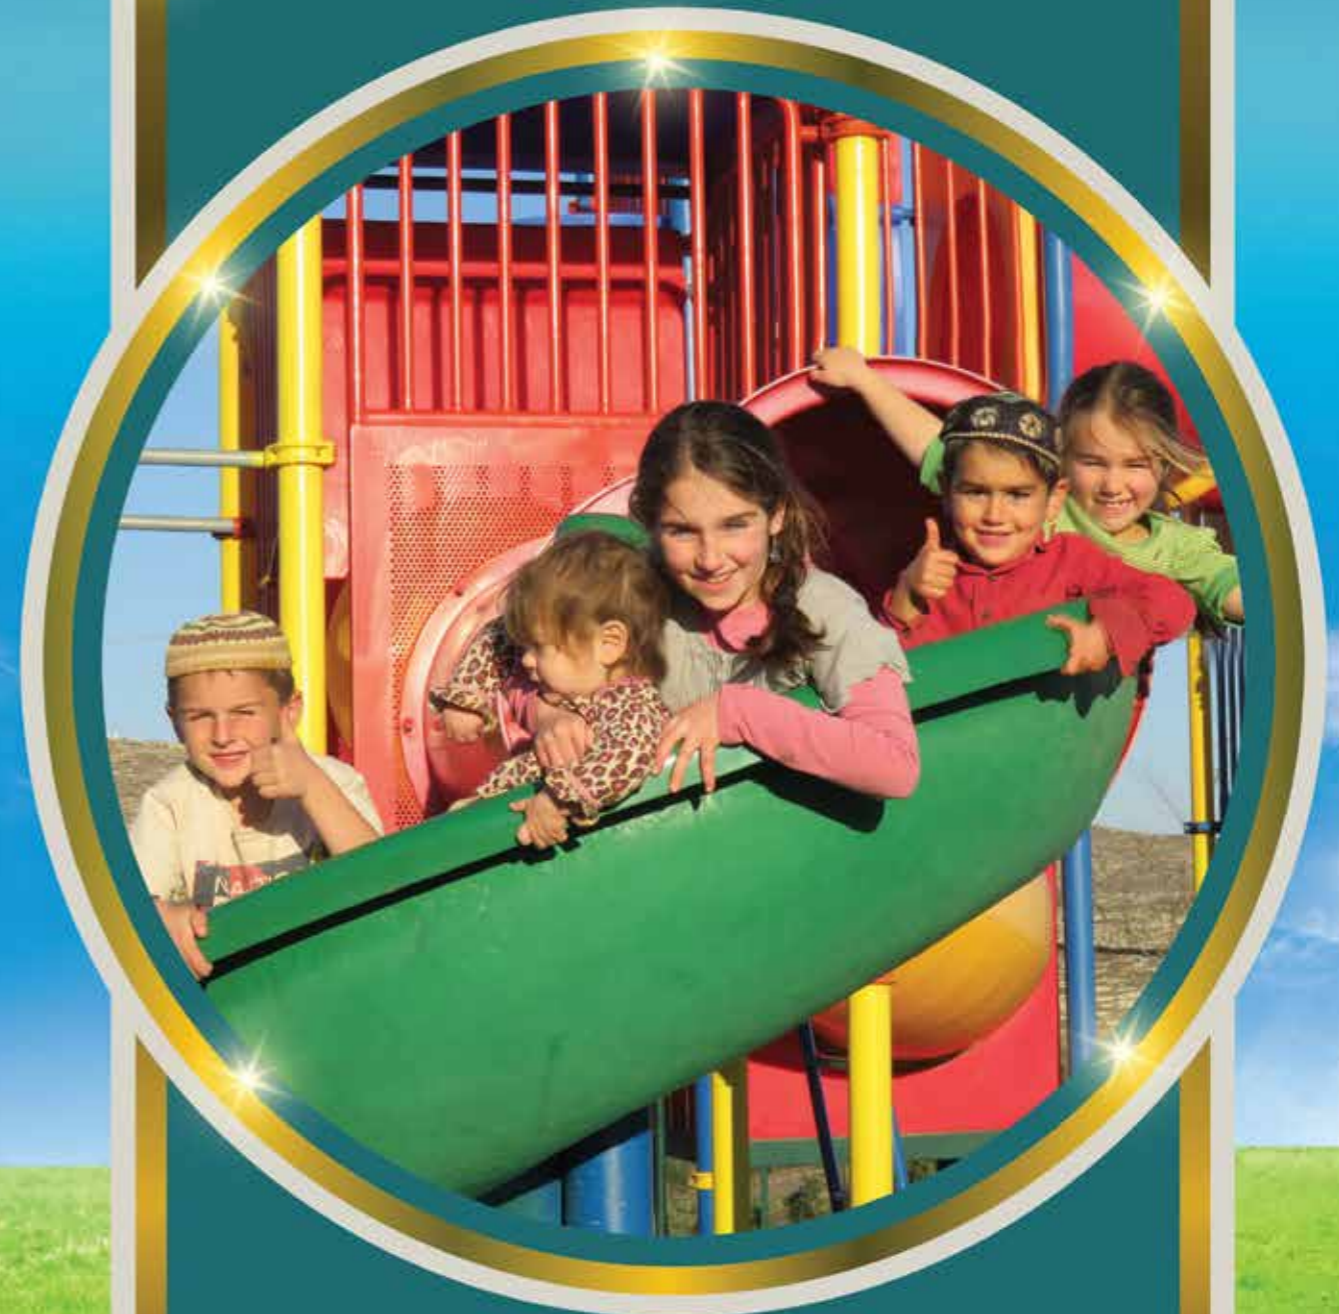

**By playing and engaging in fun activity, they can disconnect from the painful world that surrounds them and grow up happy and healthy."**

Chanoch Yeres

Director of Psychological Services Regional Council Mateh Binyamin

Governments generally do not fund playgrounds for children. That is where we come in! The Binyamin Fund is giving you the opportunity to partner with the children of Binyamin and together we will build children's playgrounds! Help us help the children of Binyamin by building them playing facilities! Help us provide our children with swings, slides and seesaws to spend their afternoons on! **Here is a chance to make a difference by helping to make these children's dreams a reality.**

**Let's give them a reason to smile, to swing, to run in joy, and to jump up and down in excitement! Let's build them playgrounds now!**

**PARTNER WITH THE  
BINYAMIN FUND  
AND CONTRIBUTE TO  
BUILDING A CHILDREN'S  
PLAYGROUND NOW!**
