

Yigal Yamin Import and Marketing LTD

The good country fruit LTD

The Good Country Fruit LTD was established in 2012.

The Good Country Fruit LTD grows many and different varieties of quality potatoes.

The company markets 20,000 tons of potatoes a year, about 10% of Israel's local potato produce.

The company's owner enjoys a decades-long reputation in the agricultural field.

The company specializes in growing special varieties of potatoes for export to countries in Europe.

This includes potato varieties used in salads specifically developed for Western Europe (Germany).

Up until the war in Ukraine most exports were to Russia.

THE COMPANY'S UNIQUENESS:

Quality | Quality potatoes grown in Israel's ideal climate by its best farmers.

Quick and professional service

Logistic solutions

Our company is part of Yigal Yamin Holdings LTD, which also owns cold storage, sorting and packing houses. Thus we are not dependent on any entity at any of the process stages, from planting and growing through to marketing to end users.

Israel is a global agricultural leader owing to its human capital and to the country's optimal climate conditions. The country's agricultural sector is among the most advanced in the world in developing potato varieties and in its high-quality local produce.
